Subject: LSJ wave runners choice
Attachments: jetski 032.JPG; jetski 033.JPG

Jeffrey,.

I inspected the Seadoo waverunners and Yamaha wave runners, Both have =TS (off throttle steering), and reverse. seems that Yamaha is best choice for St. Thomas for service according =o Brice,.

The 2011 Yamaha VXR 3 person wave runner with sport seat is my recommendation: its a NON-supercharged model with,=20 OTS, reverse and boarding ladder in rear if rider falls off the u=it, or goes swimming etc,. speed is 63mph for the VXR non supercharged unit, compared to the supercharged units that top out at 77mph+,.

list price: \$11,548.00 each (silver in color, see photo),. two silver =nd one black in stock in West Palm beach,.

Total, no Florida sales tax: \$23,096.00 (however, Emad pls confir= we'll pay tax on arrival in St. Thomas with customs?)

I can purchase both units for \$20,500.=0 out the door,. they will deliver to Tropical for shipping to LSJ,.

is this approved, wave runners in silver?

thank you,

Larry
