Subject: RE: TR: J. =pstein

Dear =arah,

We went =o Mr Eptein's apartment last week and made a complete overview of the =ystem.

Before =inalizing the estimate we would have a few question, could you please =ransmit them to Mr Eptsein.

Music

Sonos =ystem is really the best because it can work wireless. We counted all =he zone where you already had an audio access keypad. But in some =edrooms there are small hifi systems.

Do you =lso want to replace them by sonos. Or maybe later =

Do we =se the music stored on you mac (it means it has to be on to listen to =usic, or do we propose a standalone server (1500 €) =

For the =peakers, the small JBL that are on the floor in the living room and =ffice look very small for those rooms. Would you like us to propose =loor standing speaker (like B&O, because good sound and good =ooking)

Home =heatre

Since =e can't run any new cable we'll try Wireless HDMI on the new projector. =o we will also have to change : DVD, Receiver, Screen (for a =6/9)

We'll use your =pad to control It

No =uestion about the home theatre

Guest bedrooms + Master

Cables between TV and DVD are poor. Impossible to run new cables so 2 options =

1. We change the TV and DVD, but we still use analog cable (it will still be good quality)
 2. We use wireless HDMI transmitter (approx 1000€), I think it worth it for home theatre, but maybe not for guests bedroom
 3. We use B&O TV with bluray dvd included. Yes it is more expensive than other, but more beautiful too.
- Everything in one box. Only one remote control. 14000 € / each 40" inches. For your bedroom we could go up to 55 inches if you want.

Let me know what you prefer

Thank you for your answers it will allow me to finish the estimate

Best regards

Philippe
