Subject: FW: Choice fiber update

Good day All

The LSJ Fiber is successfully connected. Hector will be handling the final programming protocol and then monitoring for QOS (Quality of service) remotely. He estimates active service for LSJ by midnight tonight.

Things needed to finalize the project:

Program the router so that the Dragonwaves are used as the failover

Bring the LSJ Dragonwave up to spec with all updates and physical high adjustment (this will eliminate the rain fade)

Regards

Jruan

Good day All

Choice, vinn and myself are onsite at Caprita point troubleshooting the fiber connection.

Hector =ame by the office and he and Jermaine went to the Cabrita site. =ector found some yellow cable that he thinks will work in the =nterim. I asked him if we still needed VINGN to go out and he =aid no. He will get the cable that JE is bringing down =omorrow and swap it out. He will let us know how it is working =his afternoon.

With warm =egards,

Cecile
