Subject: Gym Lights on top of columns

Jeffrey,

Gary Moses needs some clarification on the above subject.

- 1) On the sheet it says lights on top of columns but he said per your meeting you said lights in front of columns. Gary recommends doing the light on top due to the left hand wall being high.
- 2) Do you have any specific light fixture in mind?
- 3) Will you also need the helipad columns lit up as well and will we use the same fixtures if so.

Thank you

<=p>
