Hi Rich & Danny,

Can we talk tomorrow morning around 10am or 11am?

Please advise,
Ann R.

Ann,

Please see the attached proposal for a 100kW diesel generator delivered to your barge in Red Hook. Danny requested this quote so please pass this along. Thank you for the opportunity and I look forward to seeing you on Monday! Cheers.

My head boat Captain Mr. Carlos Rodriguez will coordinate with you all.

Carlos please advise...

Ann,

I would like to bring two of our top technicians over on Monday morning at 8:30AM. We will be taking our boat so no need to coordinate transportation. Will this be acceptable?

Tomorrow morning at 9am would be great if possible?

Please advise,
Ann R.

Afternoon Ann,

The initial visit was made but we found most of the batteries had either boiled or evaporated out all of their water. These were topped off and sufficient time has passed to get a better sense of charge and specific gravity. I'd like to schedule the next visit to complete our original assessment and report. Please let me know when that would be possible?

Evening Ann,

Please find the attached quote for the maintenance of the existing solar power plant and the expanded 50 panel array. Call me to discuss any particulars.

Regards,
