Subject: Introduction Kris - Jeffrey/ re IT search

It is my pleasure to introduce two of my friends.

I briefly mentioned you few words about each other so I will not go here into it. Let's leave it with just that I think a world of both of you ☺

Kris – as I mentioned you, Jeffrey is searching for an outstanding senior IT person to set up and run his network. Jeffrey needs to connect several of his properties and assure that trading and other transactions are happening seamlessly. He would require a person operating it from NYC.

You mentioned that you know few great candidates, one of which (that UK guy) seems a great candidate.

As I am traveling – perhaps it would be the best that you two communicate directly.

Kris' cell is [REDACTED]

Jeffrey' number [REDACTED]

All the best

Boris
