you didn't constantly bitch about [REDACTED] etc, you didn't feel as if you were entitled to ask where when why,, you didn't feel it necessary to make others feel uncomfortable or tell me you would do things , promise to do things and then , not. you didn't feel able to putrify the house, and expent others to clean and ignore it. you and I had fun,, I had my naps , my, my..... and you didn't get upset, and then mope around the whole day. I didn;t have to explain who was comiong and why. i didn't have to listen to " I called ten times and no one picked up.. You didn;t spend the majority of your time shopping for yourself, , I don't care about things,, if you think its the dirty carpet, instead of the total lack of thought , you are simply deluding yourself. , At that time if you recall, not one person did not coment on how nice it was to have someone who said little and was pleasant.. it then turned into jealousy [REDACTED] russians. froze,, , you did less and less, and expected more and more,, . do you think if you crashed the car, i would give a shit.. about the car, if howver you told me that it would be better if i have to answer my own phones than have someone in my own house that helps out,, that is disturbing. I have not asked for you to fix it alone,, but i have asked you to do the monst minimal of things.. things that you continually refuse to do.. the flowers and the carpet ,are the results of your self focus. The last time you had your issue with the dog, was it becuae of the hardwood floor.. I think not.. It was the total lack of responsibility .

Jeffrey, I can see I have a part in this unpleasant situation but I can't fix it alone. You seem so unhappy and let little things ruin your day, even a week.. I was so taken by you when I met you because I never knew anyone so easy going, carefree and fun and it was wonderful. You didn't let anything get to you and had an attitude that things are just things and people are what matters...

I remember I broke a bike and ruined the stone border by the gym when I fist came to the island and I felt terrible about it. You just made a joke and never mentioned it again..chances of that reaction from you now are close to 0. I don't know if you are just recovering from jail now or this is the new you but to see you shake with rage bacause of dead flowers still in the pot or a dirty carpet is very disturbing. It is understandable but it is how most men would react, not you.. In the scheme of things this is so petty and the reactions are so out of proportion. You will have to be miserable all day if you don't pick your battles.. I would know ;-)
