Jeffrey,

[REDACTED] brought the Bentley in for the 3 year service and several other issues and I just got the report back from Bentley.

I managed to get them to do the service which would have cost about \$ 3,000 for free since the warranty expired about 3 weeks ago.

The rest of the work is estimated at \$ 8,188 plus tax.

The list of repairs are as follows which includes parts and labor:

- 1) Flatbed towing \$ 201
- 2) Air conditioning leaking valves \$ 545
- 3) Side Marker lights both are cracked \$ 565
- 4) Roof antenna is cracked, replace and paint to match the car \$ 807
- 5) Detail wheels to remove spots \$ 150
- 6) Repair loose rear head console \$ 155
- 7) Replace all brakes \$ 3,185 they are at 5mm brand new they are at 9mm so these are almost half way worn out
- 8) Replace all tires which are all below spec \$ 2,580

The car currently has 12,304 miles

If all repairs are done the car will be ready by 7/29

Shall go ahead with all repairs?

Thank you

Emad Hanna
