Janusz

I noticed during my last visit the accumulation of leaves and landscape debris in the pool. To help keep the pool clean between service visits, Larry will be purchasing a pool cleaner and leaf net for the pool. He will show you how to operate/maintain cleaner. Please note skimmer baskets will need to be checked and cleared daily to maintain proper pump circulation.

Any questions or concerns please contact me

Brice

PS It might be a good idea to purchase a leaf blower to clear walk ways and patio's between service visits as well.
