what is the strength of the ones in the trees currently.. i agree some combination seems in order..
lets experiment asap

I forwarded you Joe's email days ago. What would you like to do re the lights:

from Joe:

The only two suggestions I would have would be to try putting some lights on the house shining down into the garden or put some lights on the actual palm tress in the garden shining down into the area. We could move the temporary lights we put on the palms behind the wall to some of the palms in the actual garden for you to look at and see if that helps. Doing that would be easier before we try something permanent. Let me know your thoughts,
Joe
