look for statements that reflect you actually doing something as opposed to complaining about my responding to you. i.e. I read the book on low cholesterol and cooked something, i cooked something from the book you spent time reviewing. i learned, I organized, for you I bought for you brought for you or made for you. i helped, i assisted, i did what you asked, (russian reflexologist, had you asked i would have said no interest whatsoever,) , I surprised you, a gave you. I like her, she was nice, she was helpful, you are lucky you will find many how could you say that, why did she, how could she, why did you, i don't like,

I was suggesting that you wrote (refer) that "all the doctors keep me informed.." once again total fabrication based on nothing but your misplaced suspicion. I have never once invaded your privacy, not once. this is the reason it is difficult for me to listen to you or in your words be open. open for you means accuse me of another petty transgression [REDACTED]
