It is stressful trying to figure out what you might want, asking you the same question 10 times and hoping you don't walk away again, start singing, calling someone or go swimming without an answer, leave me to guess and later complain why I didn't ask or do X. Or you start rolling your eyes if I keep asking and I feel I am annoying you.

A part of this agreement was that you and I also spend quality time and I get 2 days off. I have been trying. I make an effort to pay attention to what you ask for and do it. Every time I see you instead of being excited and relaxed I am stressed and anxious about what I should offer you and do so you are not upset. You have simply focused on what you get, cancelled our movie and ruined my day off by starting a fight.
