I don't know what game you are playing by saying "take a day off every day for 2 weeks" Should I assume you mean it or again you choose to concede and will make me pay for it later if I take the bait? I wanted to be helpful but this kind of communication is like dealing with a little boy,, or maybe it's the express train and I don't get it. I can't read your mind, I get conflicting answers and no sign of appreciation or effort on your side to make this work. I need guidance and not fear that you might explode any minute. Whatever we had that made you treat me with kindness and warmth is not here. It's only do this do that, ask permission to leave the house, ask if I want to have sex with your friend before you take her to spend an hour with you, why do you sit when you are talking to me for 2min and not make yourself useful by rubbing my head, fuck you when you make plans to go exercise without asking for permission, I am going to travel without you unless you want to take a ride and stay there, Jeanluc thinks you are sick...instead of thinking how you can help me be more helpful to you, encouraging, or even just giving orders with a smile, you attack and push me away. No hug, no kiss, no movie, fun, talk, no thank you for v, for z. Maybe we should revisit the idea of living in separate places down here
