Good morning Mr Epstein, I'm up early I slept at 10:30 pm yesterday which is great compared to the usual 12:30 or 1 pm scedule. My laptop has been crashing on me so I came up stairs to my brother manny computer. It has been very cold over here I walked my dog before coming up and it was funny you could see him shivering I felt bad loll. I bought him a coat but he refuses to wear it. It takes me a good 5 minutes struggling with him just to get it on. last night I watched the movie "Moon" it was'nt bad its about a man that is on the moon by himself and these robots and computers are with him and he has a 3 year contract before he goes home. Little does he know that its been over 15 years they have been cloning him every 3 years and when they do he wakes up in the infimary and the robots tell him he got hurt that was sad. Other than that all has been fine in a few i'm going to make breakfast and relax. I just have been taking it easy nothing much has been happening just bored loll well you have a great day Mr Epstein and I will talk to you soon stomachs rumbling loll.

Love, Phillip
