i am waiting... we have spent 5.7 million dollars.. we have received the desk the cabinets, and the office plans.. THAT IS IT> that includes mcguire's throw aways..

This is worse than I thought.. if the cabinets are million and the plans 700k,, you will need to pay between 3-4 million to reimburse me.. This is before I add the expenses incurred from my side , at your direction. I am confident of my position in this. I await your call.
