dear jeff

it has been ages. how are you? i haven't seen you around here in a long time, but wanted to touch base just to say hello, and pass on some more papers that, thanks to your help, have emerged. the first, Mind the Gap, is in press at Nature, and is, in my opinion at least, the most important theoretical piece I have written. but i leave the judgment to you. and then a few other empirical pieces that i hope you will enjoy.

do let me know if you are up this way!

all the best

marc
