I think , you should never want anyone to suffer. it only comes back to you.-- He is the first of many new experiences-. take away the good from it. You are an experienced model,, sometimes you don't get the job, but most of the time you do.. its like that,, consider him a job that you did , you're not satisfied with it. but there are many more jobs to come. enjoy the process, and learn from it. just like you would do at a shoot. Trust me , you are great, and smart.. you should try to enjoy the new feeling, and have it motivate you to do better (choice of men) next time.. its no more than a less than satisfying photo.

Hi! how r u today?Im sure u r great as always...im in Stockholm now..
well im afraid im a little down since i left NY..i thought im gonna be totally fine, but im kinda sad..im not really sure why but i think its because he didnt text me yesterday so i called him last night..and he didnt tell me he miss me(probably cause he was in a car with one of his guy friend) but he always says that!Although i know he ususally doesnt really mean it but its always nice to hear it, u know..and he didnt text me today either...
And i think the whole thing is pissing me of not because i miss him but because of my ego..I knew since the beginning that he is not totally crazy about me but i thought he is at least a litte bit..well looks like he is not, so thats why i feel weird..and i ve been texting with all m friends the whole day to keep myself busy and not to feel lonely..im sure ill be fine soon but maybe i jsut wanted him to suffer a little bit if u know whati mean...

What do u think about that?
