this is still totally wrong.. i don't get it.. where is the landscape. .. i need to see a rough elevation of this very strange wall that runs to a pavillion that i have said doesn't work at least three times.. it stops beroe it reaches the furthest point.. this tells me nothing,, these terraces.. are 100%uselss.... I am getting frustrated, I have said repeatedly that uncovered outdoor spaces are a waste of time and money.. they don't work. it is uncomfortable. I am very distressed. the sculpting of the land has new curves , is it grass. gravel , this makes no sense whatsoever. the terraces hang off the top.. the house looks too large for the top of the hill.. ,, what happens on the other side of the new hill.. there are no bold moves. this is merely a bad redo of an already bad idea.. where is the circulation to the back of the house.. for staff.. hasan please call me tomorrow, I have asked now for the past 6 weeks for rough ideas,, this is extremely counter productive.. the hill down to the pebble beach is left undescribed.. corners of unused unnecessary terraces, hang off in outer space

Dear Jeffrey,

Hasan has asked me to send the following:

Attached you will find:

- Site plan (Bradford Assoc.)
- Building plan
- Alternative scheme pertaining to changing room and bedroom sequence

Massing models are in progress and will be ready on Monday

Hasan can be reached over the weekend at home

Best,

Andrew
