Jeffrey,
I spoke with Dawn and Jack, my outside source's for audio:
I think Nick's recommendation to use the Integra PreAmp in conjunction with the SunFire Amps is good.
Since we know the performance of the SunFire amps.

The Sun Fire amps are 400 Watts per channel,. compared to Integra's 150 Watts per channel amps.

Nick also said, if we are not satisfied with the Integra's pre amp, he would change it for you,.

I have found SunFire PreAmps for sale on the Internet, but Nick feels strong the Integra pre amp is the way to go,.

are you OK with this decision?

thank you,

Larry
