Subject: LSJ kitchen

Scott,

I spoke to Sanus 1-800-359-5520 the LF228-B1 mounting bracket has a weight capacity of 135lbs, the Samsung TV for the kitchen is a unc65c6500 weights 77.7 lbs. according to Sanus, they have not re-rated their mounts to say they accomodate a larger screen., since the new sets are much lighter than before,. The bracket you have will work fine according to the manufactor, its the weight rating, that matters.,

If you feel we should get the larger bracket, let me know, I will exchange it?

thanks

Larry
