I'll see if the B747-400 simulator is available on Fri. Bring your flight log; it's a Level-D sim, so the FAA will give you credit for type-rating, multi-engine, IFR, etc., just as if it were an actual aircraft.

Do you have any particular topics you'd like to explore?
Astrobiology, perhaps? Extremophiles? Air Traffic Management? We have a lot of good folk here; choose a topic, and we may have a world-class expert available.

Also: Are you interested in the Internet Archive? Have you been (or want to go) to Googleplex?

All the best.
