Attached is the water appropriation amounts for Zorro Ranch from 2005 to 2010
the one thing that I did not mention was in order to use Dakota Water for domestic and
irrigation purposes, there is a requirement to mix with wells 4 and B.
the ratio is approx 1/3 dakota to 2/3 B and 4 Water.
One Correction the present extension of time to appropriate 25% of the Dakota permit is
now Jan 15 2014, Zorro would need to drill a new well and install new RO equipment to meet
this goal.
will be forwarding water analysis to TSG USVI to confirm use of container RO at Zorro.
