Subject: Press Release submitted
Catastrophes Conference.docx

Hi Jeffrey,

The attached press release goes out tomorrow to thousands of journals, blogs, reuters, newspapers etc. The service I used is the best in the industry (one of the top two rated):
www.pr.com

The digital quality of the video is not good enough for submission. I will ask Cecile for stills.

I will track the success of the release and will update you.

Any more newsworthy events or sponsorships that I can use? or should I just ask Cecile. I would like to send out an on-going stream of them.

- need to keep working on wiki. appealing to remove your article altogether.
- need to optimize your public profile sites and add more.
