Hi Jeffrey.. hope all is well.. hope you will visit here soon for one of our events..
anyway, wanted to share some good news!

(1) A Universe from Nothing, which was released Jan 10, 2012 has hit the New York Times Bestseller List (Jan 29 issue) at #11 on the Hardcover list, #14 on the ebook list, and #15 on the combined list! I am nothing short of amazed, given that I have done little national media so far.. anyway, will hopefully help with divorce.. :)

(2) Got a call from the Chairman of the National Science Board yesterday informing me that I have been awarded the National Science Board's Public Service Award (the governing board of the National Science Foundation and advisory board on science for the President and Congress), their highest award for "substantial contributions to increasing public understanding of science and engineering in the United States". (a subject I know you care about a lot. :)).. The award will be delivered at a black tie dinner at the State Department in Washington DC May 3, 2012.

Wanted to share.
