Jeff,

I think it may be better to voice your concerns, changes, etc. thru me at this point. Let me communicate that to them so there is no back and forth. I will clarify things with you if needed

I see the staff there trying to explain a lot of how they will execute things that you. necessarily don't need to know. In saying that, we might have to alter some things if a legitimate concern comes up that we have discussed and that we have come up with an alternative that satisfies you. You are many ways to skin a cat!!

Let me know your thoughts on this and we can implement immediately

Marc
