Hi Jeffrey,

I met with Carlton Dowe and we toured the site you spoke to me about. That site (see first three pics) will not work because of the depth. The foot print of the current hangars cannot be increased.

We also looked at the site to the east of your current hangar (see the 4th pic) where the three trailers are located (Cleo Hodge, Execujet and one other). Dowe said that we can work something out there however Hancock from Execujet has already put in a proposal to put up a building there and Dowe had already decided to put out an RFP. Hancock does not have any aircraft.

I called Larry and got the dimensions needed for a hangar to house both the heli and the jet (100x120) and relayed that to Dowe. Is there anything else that you would like me to convey to Dowe?

With warm regards,
Cecile
