**Subject:** Re: Re:

After trying to find any way and talking to many people, working in that, I recognized, that the only way to go out of this place is to become a student and make all documents right.

I told you I was rejected from my university, despite the fact that I should study only for 2 years more and get my British diploma, and even if I could restore my studies right now, there is no chance to pay for them.

They need to see a person STUDIIing or working (in more mature age), having family, funds and house here to be sure that I will return here because I have enough stuff to bond with this country.

thats the facts.

cant see any way but working here untill I can do something for myself, but its complicated in our system.  
we'll see

Thank you for all your support Jeffrey, I appreciate it so much and want it to come back to you much more and better!  
take care,  
love,.

G.
