Subject: Re: From Mort :)

I would suggest that these numbers are social indicators , rather than a prediction of the financial markets.. As i thought last year, that the markets would not reflect unemployment, but financial results. this has happened,, I continue the think that the the impact of computers , internet on business, has wide ranging implications seen in the unemployment numbers, but as apples earning attest,, the US is out ahead in tech, and tech driven business, which seperate from real estate drives the markets.
