Subject: Re: Housing Idea

i prefer keeping transfers to a minimum,, letting the homeowner stay in ,, the section 8 type payments made as mortgage assistance,, it keeps the banks books clean.. the mortgage shortfall certificates can trade. they are a call on different pools of similarly priced homes 200-250k 250-300 k etc. they are of differnt durations, and maybe have a govt like gurantee. or a converible mortage type bond converitble into the equity or equity increase
