Jeffrey,

Demo flight went well, No LOI signed yet, according to Aetna's broker, the person authorized to sign is out of town till Monday, George was very blunt with their broker, indicating that was unacceptable,. The CEO Mark and his wife went on demo flight,. I heard her say, the photos didn't do the interior justice and they liked it very much, especially the curvature of the seat back,. They both said it was quiter and smoother than their C++, all good comments,. The weather was low overcast ceilings all day, I had to do the approach to minimums on arrival, but cleared up just in time to take demo flight with CEO,.

I viewed their C+ we are taking in trade, its a rag, but still worth 1.8m to 2M in my opinion. I can see they definitely need a new helicopter, they are only operating the c+ 10 hours a month at this time. Our helicopter is back at AAG, need to change #1 inverter, it failed today,.easy fix, warranty,. thanks,
Larry
