My concept is to hold a conference of the world greatest scientists , sometime in Abu Dhabi ,in 2012. I would sponsor or co-sponsor the event. It would do many wonderful things for the regions and its young people. It would show the middle east as forward looking . It is perceived as being more concerned with its history then it is with the future,, This would be focus on the future,, Medicine Bioogy, Physics, astrononsy.. Sciences that began in your part of the world . Young people would be introduced to the newest techonologies. Inspiring them into fields of excitment, potential and impact. I AM NOT POLITICAL , as you know. my goal is to have a fun event. FUN. Many of the scientist s have never been to the Mideast. Nobel Prize Winners. young genius award winners etc.. We could webcast the presentation. as comoing from Abu DHabi.. IT is a win win win sitiuiation. I had briefly mentioned the important of science when i had the priviledge to sit with HH at sir banayas, and I am well aware of his already full schedule , but I think he would enjoy it. and it would do wonders for the perception of the country,, looking forward to hearing views on the next step.
