Title: Can I call now

Went to my mother's house to clean out her clothes and went into her office and found EVERY piece of financial papers since the 1988 death of my father!!!

I took four boxes of files, income tax returns, all the trusts etc and delivered it to Phillip Michael's yesterday. He tried not to smile...but I know he was impressed.

He is sending my brother a letter shortly.

He says if we went to court, I would have a 99% chance of winning. We are not going to court. I said, "I want it all.". He said I can't do that. We will make a deal.

Not only did my mother invade my father's trust, she gave all the money to my brother....and he was the co-trustee of the trust. It's all in the files. In her handwriting and legal papers. It's just astounding.

Do I need a tax accountant?

Lawyer told me to put all the jewelry in a safe...should I just take it all out of the house and put in a safe deposit box...or a safe in the apartment?

My neice is living her and knows nothing yet.
