Jeffrey,
Senegal and Mail, are far enough north with good weather,,compared to Equator located city, such as Gabon,,

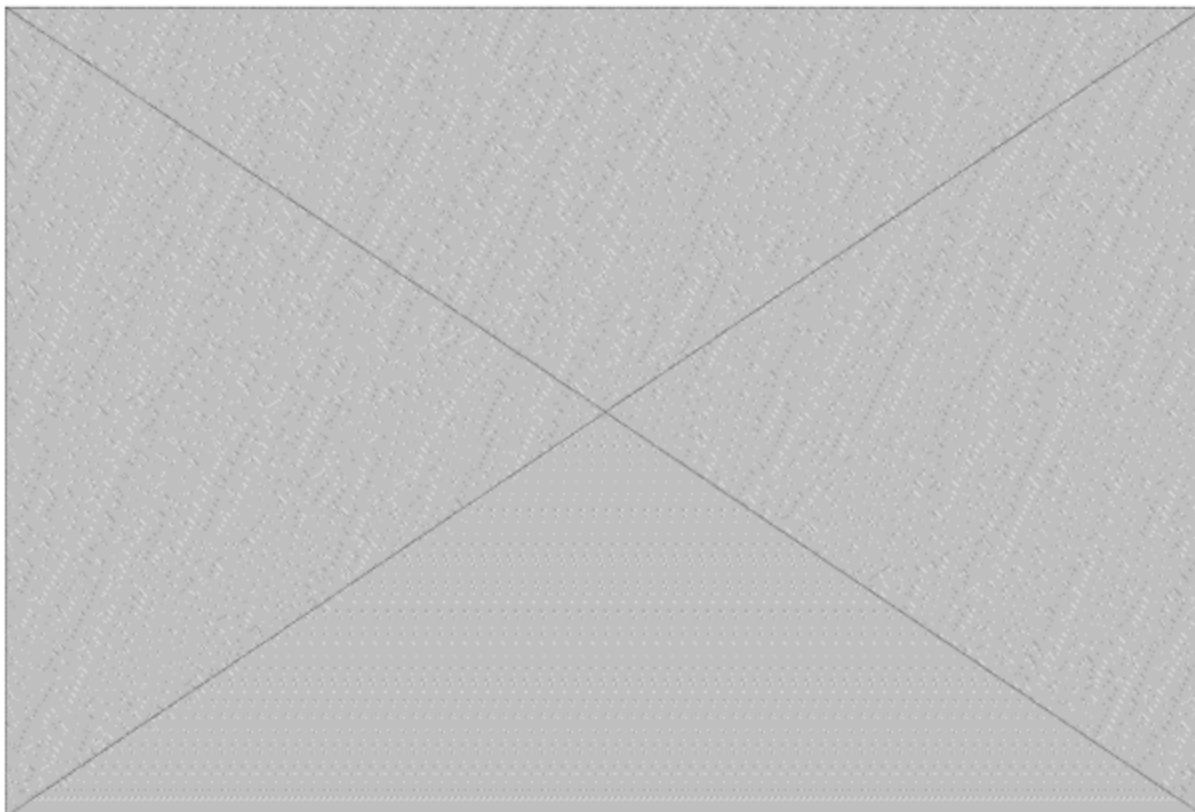

just a weather report for Libreville, Gabon, I believe this country is located by the equator, which is highly active with large afternoon thunderstorms,, of course this is the birth place of Hurricanes, which roll off the African coast,,

forecast is high 87 degrees, and afternoon thunderstorms: this photo was today at 10pm, which shows Gabon under heavy thunder activity,,

Just wanted to share with you, if case this may help in your schedule for later this week,,

thanks,,

Larry
