Ok,  
No Problem.

I know of three different farms in Puerto Rico that sell, Grafted fruit trees which have hybrid heirloom qualities, and also they will bear fruits much faster than traditional seed stock.

I think the best for LSJ, would be:  
Citrus;  
Lime, Lemon, orange, grapefruit, Starfruit,

Classic Caribbean Sweet Fruits:  
Mango, sugar apple, guava, cherry, pomegranite,

Also some more exotic trees that might do well with proper care:  
Bread Fruit, Jackfruit, Lychee, and Rambutan

Once I know what trees you would like, we can determine how many trees we can hold in that area.

However keep in mind that we also have the whole area from the, ornamental Banana Patch to the stone river Below the Gym. Where we have started to plant a Tropical Fruit Orchard, using trees which were badly damaged.

I think filling that area with healthy, bearing trees would be very beautiful, sweet smelling and invoke a feeling of Health and Vibrance, when enjoying the view from the Gym terrace or driving to the new pool at the western point.

I will organize prices, and get back to you.

Hopefully we can bring the fruit trees over with the palms on The Commander.
