Gary,

Lights on ten palm trees on West side of master bedroom are already complete. We won't be adding any lights to the beach area until the west end pool electrical feed is complete. After that we will move the transformers off the grass area to just below the road to feed the palm tree lighting on the beach. I am waiting on a price for the belts for the Date Palms in the courtyard, and then I can complete the lighting there.

Gary

Elect shop

I guess the courtyard lights will have to wait , until the pool? can gary light some of the trees, behind the master on the road so that at night looking out from the bathroom there is more than just black... These are much more important than the trees on the beach that no one sees.
