It's a photo of the L bar which mirror place recommends using in addition to adhesive. They get screwed onto the wall and it acts as basically a shelf to add extra support for the mirror after adhesive is applied. They say they are nearly invisible when used. She's going to try and find a picture of them installed with mirror to show me what it looks like installed

This is a photo of the LBar they use for installation of the acrylic mirror. It comes in chrome, gold, brushed nickel and oil rubbed bronze. They said the best option for mounting would be to use both adhesive and an L bar. They said it will take about 7 business days for fabrication, then they can Fedex the material to St.Thomas
