The largest sheet of acrylic mirror from the company I ordered a sample of which is on island, is 4ftx8ft. Each sheet is \$415 per sheet. They are working up a quote for me to see if they can give a discount for quantity. The wall is 32'x21', so we would need 672 sq ft of material.

The company sells an adhesive called Mirromastic, which will work if the wall is very flat, as well as J Channels which is a metal track the mirrors would sit in, as well as J Bars for installing. They say any method of install would work.

I will forward the quote for 672 sq ft once I receive it.
