[Overview](#)

[Highlights](#)

Excelon Performance & Quality - eXcelon products incorporate the latest technologies and deliver the highest sonic performance. From advanced audio tuning capabilities, crossover and equalizer systems, high voltage preouts and two-year warranty, eXcelon represents the very best product available.

Built-In Bluetooth Hands-Free - Bluetooth wireless technology promotes safe driving habits by allowing you to have a hands-free conversation while you drive without the need to hold a phone. Incoming calls can be set to pick up automatically or at the touch of a button if you prefer to screen incoming calls. For outgoing calls, you can choose to dial out by scrolling through your phonebook on the easy to read display interface or by voice dialing if enabled on your compatible smartphone.

Built-In Bluetooth A2DP Music Streaming - Enjoy wireless music playback from your Bluetooth device like a smartphone or tablet via Bluetooth through your in-dash receiver.

Check for Bluetooth phone compatibility at
<http://www.kenwood.com/cs/ce/bt>.

USB Connectivity for iPhone and iPod - Most USB-enabled CD receiver models, feature USB connectivity for audio playback from popular devices like iPhone and iPod. Featuring easy-to-use user interface, iPod browsing is a breeze when searching by playlist, artist, album, song, genres or composer. Additionally, you can use advanced search functions like Reverse

Browsing, Alphabet Search and Skip Search to find what you want to listen to, quickly and easily. For added versatility, App/iPod Mode disables the receiver's integrated control, enabling passengers to control the iPod manually including some selected Apps. The same USB connectivity allows users to connect USB thumb drives and external hard disk drives.

Check for iPhone-iPod compatibility at <http://www.kenwood.com/cs/ce/ipod>.

Pandora Connectivity - Install the Pandora App for iPhone, Android and BlackBerry smartphones and enjoy a personalized listening experience.

A number of Pandora functions can be controlled from a Pandora-enabled Kenwood receiver when an iPhone is connected through USB. For Android and BlackBerry smartphones, controls are done via Bluetooth A2DP. Functions include Thumbs up & down, Bookmark Artist, Bookmark Song, A to Z search and Alphabetical channel search. Pandora allows users to maximize the internet radio experience in your car by customizing all of your favourite artists for a rich musical experience.

Pandora application requires a data connection on your smartphone with service currently only available in the U.S.

SiriusXM Ready – Adding SiriusXM is made more affordable with a single direct connection to the optional SXV100/SXV200 SiriusXM tuner module (runs exclusively on the XM network). With your subscription, you will now be able to access all your favorite music channels, sports games and entertainment including some advanced SiriusXM functions like Instant Replay and Game Alert.

Kenwood Music Control for Android Smartphones - This Kenwood application organizes your music and provides quick and easy search capability from a compatible Kenwood USB/CD receiver such as by artist, song or genre. Additional function also lets you select music based on your mood.

This free Kenwood App can now be downloaded from the Android Market:
