Subject: Today's staffing + questions

Brian & John are at grotto today installing last shutter.

Bill is at 5 palms installing mirrors

Clement is with tom right now measuring/surveying pad

Benny is with Bill on mirror project

Boscoe is moving equipment off bern so we can start to grade, they got delayed yesterday due to rain

Dock Box; I spoke with [REDACTED] and Bill yesterday about design. No one seems to know final design. Please let me know how you want it built. I can resend Bills drawings if necessary. I heard you wanted it around 42" high, coral stone top. Mask and fin drawers. Can hooks for robes be placed on columns? Heard something about lockers too. Are they to be underneath counter (< 42" high) or maybe two lockers next to columns 60" high.

Floating dock; last time I heard you had said to wait till bouy was in. If it is to be reinstalled now what position should it be in. Also I heard it needed some new flotation material. Is that correct?

Craig
