Michael Glidden called back this afternoon.

His quote to run electric from the gym to 5 palms was:

\$21,140 for labor

\$11,740 for material, his material includes transformer, disconnects, breaker boxes, etc,
everything except conduit and cable,

\$32,880 total

LSJ to provide:

Cable, Conduit, Trenching, manhole Structures,
based on 1500 ft (Michael wants to verify again)

4/0 cable is 3.84 per ft

Ground cable is .78 ft

conduit is 11.99 per 10 ft section (not per ft as we had thought last nite)

\$8325.50 cost for LSJ on the low end. Brice had suggested we run two extra conduits for future
use. That would add to cost.

So basic package is \$41,205.50 plus LSJ labor and material. Need to verify length and if LSJ
wants two extra conduits.

I can send this to Tom in the AM to get LSJ labor figures.

Hope this helps.

Craig

I need the jauquin proposal and the glidden numne to merely run wire to five plams from the
gym.
