Subject: Update

Rain has eased up, high winds still continue a number of trees down, a couple of mirrored sections from 5 palms down
Waves going over dock area so far carpet still in place
Beach area a mess as you would expect
Just looked up to the berm area 1 palm tree just gone down or at the very least top broken off
It was ok 15 minutes ago
Pool areas OK just getting full of debris
Will have another drive around before dark
K
