Below from Carinda in Dr. Merrell's office...I have asked her if she knows when she might have access to your lab results

Hi [REDACTED]

Sorry, were having a problem with our phones (should be fixed today). Dr. Merrell is going to dictate some information to me for me to send Mr. Epstein later today. I don't have access to his labs right now, but once I get a hold of them, I'll fax them right over to you.
