Scott checked the mcell box that boosts our signal and it was working correctly.
However, this box doesnt just let any number use it, your number has to be authorized.
He has now added Karynas cell number to it so that her phone will use it.

(The reason why we try to keep the number of phones added to a minimum is that it only has certain bandwidth and if there is too much activity it could affect your (JE) calls and cell use which are our priority.)

While he was here he also ran updates on all our airports which was necessary.
