Subject: are you still up???

Life is so strange!

There is something that you could help me big time.

A Chairman from Ophtalomology at Stanford is next to your island! I just talked to him. On the end of conversation he mentioned that he is at St Thomas.

He was sailing today around your island.

He has very bad connectivity. It would be incredibly helpful if you can have him visit your island – and if he can check images on some of your computers.

I will go and see him next Friday at Stanford.

Please let me know if it would be possible that he comes tmr to your island.

If you are still up I can tell you more details or we can talk early tmr.

Thank you

Boris
