Subject: From gary

Message I just received from gary,. I told I was upset, and felt like he was playing me with info I was fwd'd to you,,.ref to: Gary informing me he went to batt for us with price and telling Enrique his GIV was worth 5.7M or less,.

From Gary:

That is crazy not true...I told EI about the other GIV'S on the market which you and i discussed and that JE was paying a "premium" because he clearly liked the story even making a reference to Enrique having sex with [REDACTED] in the aircraft. He asked if there was any possibility for more money and I told him if there was it would not be enough to risk the 1031 tax exchange savings and JC agreed. Obviously I know the market enough to know that the entire deal was a good and fair deal for everyone. It is clear that Enrique is trying to sell for as much as possible and he is using me as the person who is telling him his aircraft is worth more. Hopefully you and Jeffrey can recognize this is merely a negotiation tactic. I do not think I could have possibly done anything more the help get us this close.
