if the fm investment doubles in three years. and thats, aggressive, if these types of returns were ordinary, than thats all larson should be doing what happens. , how is my interest calculated, can i decide when to sell, when to value , , does it effect my other salary, ordinary income, makes little sense. , what if not public, , is it only on distrubutions. , bill should not be allowed to take it away, right now, 10 million profit, 5 per cent per year, three years, 1.5. off the top 30 % of the 8.5. left, s 2.55 ,million before tax. 1.25 after , so bill makes 7.5. and you take home 1,25. .. you should attempt to make it capital gains,? only for a fraud should it be withheld.
