If you're in St Bart's, you should check out a store called Sea Memory. It's on the upper road where the crepe restaurant is. If you're facing the restaurant, go left down the road and it will be on the right. I don't remember ever seeing it before, but it has amazing shagreen items, furniture, accessories, backgammon boards, etc. There is a game table there B is going to buy for NY. They make it in a few different colors as well..one might be nice for island
