Subject: Fw: GIV clam shells

Eric can install clam shell in GIV,.
See below from Roth.

Thx

Larry

Hi Larry,

Wishing you and your family the same.

Yes, we absolutely can install the new window shades and can offer a few different types- we have a GV and a GIVsp that we are refurbishing that include shades.

If you are in NY between the 15th - 20th, you should come see the GV- it's a one of a kind, with a bedroom in the back, a theatre in the middle with a 42" pop up tv and a club with berthing divan in the fwd cabin. It's a fwd galley aircraft and it's really awesome!

Look fwd to the opportunity to provide a quote.

Eric
