President Waheed:

It was very good to catch up with you and your team for about an hour this evening.

I know that we just basically scratched the surface tonight with the number of things we need to get underway for your successful election in September but we covered a good deal of ground and your team had some very good questions as well as some contributions around operations that they currently have underway as well as additional suggestions to the operations I covered - All in all a good first discussion!!

As we concluded our discussions, we agreed that your team will work to gather the full and entire listing of All Voters who Voted in the first Maldives Presidential Election AND find as many contact Phone Numbers or Email Addresses as possible for those Voters which will allow us to be able to get directly in contact with them.

I will begin developing a baseline polling instrument for your team to review and comment on before we finalize in order to go into the field to develop as much baseline data for you and your team as possible so that we can launch your candidacy with the maximum effectiveness.

I felt tonight was a good introduction and a good start. I also look forward to your feedback

McGee
