Subject: Fwd: A way to understand the REALITY of US (or UK) budget debts/ceilings
[image001.jpg](#)

Sometimes humour is the ONLY way to make people realise how absurd a developing situation REALLY is.
It is SIMPLY not Rocket Science as the Public Know.....BUT....Politicians are sometimes just not able to face the truth
And because they won't face the truth ...it's just going to have to get far worse....until.....they HAVE to.
....if you ran your household like this you would likely to end up in jail.....
Brilliantly explained.

This puts things into a much better perspective.

Lesson # 1:

- * U.S. Tax revenue: \$ 2,170,000,000,000
- * Fed budget: \$ 3,820,000,000,000
- * New debt: \$ 1,650,000,000,000
- * National debt: \$14,271,000,000,000
- * Recent budget cuts: \$ 38,500,000,000

Let's now remove 8 zeros and pretend it's a household budget: This HELPS to make it REAL and thus understandable:

- * Annual family income: \$ 21,700
- * Money the family spent: \$ 38,200
- * New debt on the credit card: \$ 16,500
- * Outstanding balance on the credit card: \$142,710
- * Total budget cuts so far: \$ 38.50

Got It ?????

OK now,

Lesson # 2:

Here's another way to look at the Debt Ceiling:

Let's say, You come home from work and find there has been a sewer backup in your

neighbourhood....
...and your home has sewage all the way up to your ceilings.

What do you think you should do...

Raise the ceilings, or remove the sh*t?
